INDIANA NOT A BRYAN STATE

THOUGH DEMOCRATS MAY WIN THE GOVERNORSHIP.

The New Hanly County Local Option Law and Roosevelt's Activities Subjects on Which the People of the Cities and in the Country Take Opposite Sides.

INDIANAPOLIS, Oct. 14 .- Col. Harry S. New, Republican national committeeman for Indiana, said to-day to THE SUN correspondent

Indiana has not been a Bryan State since September, 1896. It is not now a Bryan State and it will not be a Bryan State on November 3.

"Remember what I tell you concerning this matter. You will hear a lot and see a lot, but the horse sense of a majority of the voters of Indiana supports the tariff policy of the Republican party. This policy has become ingrown and inbred with them and the same horse sense will give the States of Ohio and New York to Taft. Taft will be elected without the slightest doubt."

Col. New's opinions, especially concerning Indiana, ought to be entitled to sound consideration. He is a native of the State and has been intimately acquainted with the politics of it since 1880. when his father, the late John C. New, President Harrison's Consul-General to London, began his first term as chairman of the State committee.

Col. New is personally acquainted with the labor leaders of the State. He has passed through a dozen campaigns with them, and when asked concerning the attitude of the labor organizations toward Taft Col. New replied:

"Taft will receive, in my judgment, his full quota of support from the labor folks. That is, the Republican workingmen, those who believe in the tariff sched ules of the Republican party, will support Taft, and those who do not will as usual give their votes to Bryan."

Col. New pointed out that protection is popular, and the tariff revision of the future, according to the Indiana idea, should be in the direction of a revision of rates on protection lines, with a development of the reciprocity theory first announced by James G. Blaine and later on accepted by William McKinley. Incidentally Vice-President Fair-

banks in a personal conversation the other day said that the development of the United States Steel Company's interests in northern and northwestern Indiana has added to the protection sentiment.

New was asked for his opinion as to the result of the campaign for Governor between Representative James E. Watson, Republican, and Thomas R. Marshall, Democrat, and he replied:

"It looks pretty close to me, but I do not care to say much about the State contest except that any differences that may exist as to State nominations or State policies, especially on the temperance question, will not extend to Taft. Sometimes I feel as if any such differences will not amount to 250 votes in the State. That may be an extreme view, but it is my best opinion.

Many Republicans and nearly all the Democrats believe that Marshall is to be elected Governor. Tom Taggart, Democratic national committeeman for the State, and Stokes Jackson, Democratic State chairman, are positive as to Marshall, and they also predict that Bryan will carry the State, adding that Marshall's popularity and strength will sweep in Bryan, but they don't say this with much, if any, enthusiasm,

There is a great furor in betting circles. Thousands or wagers have been made at published odds. The Republicans have The Democrats have made a few small bets at 1 to 2 that Bryan will carry the State, but they refuse the bets of \$2,500 to \$1,250 that Taft will win in the

The Republican State committee's bank account is worse than nothing, while all the big brewing interests are reported to be dumping in their shekels to the Democrats, not for Bryan, but for Marshall.

You hear this statement very frequently, not only in Indianapolis but in Evansville, Fort Wayne, Terre Haute, Muncie and elsewhere. Sometimes it is accompanied by the remark: "We feel like voting against Taft just to punish Roosevelt."

Stokes Jackson, chairman of the Democratic State committee, and the always to be remembered Benjamin F. Shively; said to-night in a joint interview: "Harry New and his friends are banking considerably on the country vote of the State for Taft, and we know they are banking on a broken reed. So important is this matter that perhaps information will bear repetition wherever The Sun correspondent wherever The Sun correspondent wandered he has heard scores of sgruntled city Republicans who cried with soreness in their minds and tts over the injuries that Roosevelt done them, and because of them would smash Taft. Then old hands in the party have got to work and flatly warned angry ones that if these threats

were carried into effect and Bryan was elected Roosevelt would be forced upon the party in 1912.

This was especially true in Ohio and was so stated in The Sun's despatches several weeks ago. It is true in Illinois and Missouri and it is true in Indiana.

Many Republicans in these and other States are severely criticising Roosevelt, and not a few openly declare that if Taft loses New York, Ohio and Indiana he and no other agency on earth will be responsible. But, as already said, scores of substantial and thoughtful men in the Republican party are at work on the dis-

of substantial and thoughtful men in the Republican party are at work on the dissatisfied and angry ones and they believe that their work will bear fruit.

In the country districts of this State as well as in Ohio, Illinois, Missouri and elsewhere the sentiment concerning Roosevelt is just the reverse. These country voters say they believe in Roose-fruit voters, and here in Indiana they don't care a whit how many thousands Roosevelt jerked out of Edward H. Harriman or other multimillionaires. They declare this openly. It is with them anything to hit the corporations.

This city is the headquarters for two

This city is the headquarters for two important labor unions, the United Mine Workers and the International Typographical Union, and there are volumes to be heard and printed as to the attitude of these these unions toward Taft. Probably the cigar makers unions and the glass makers are the two great unions of the State. Vice-President Fairbanks has State. Vice-President Fairbanks has a requently said that the cigar makers' union itself could swing the State for or against a Presidential candidate. Investigation and personal statements are to the effect that the cigar makers and the glass blowers are for Taft, not because he's Taft, but because he represents Republican tariff schedules which have greatly benefited them.

This city also is a big railroad center and a railroad Taft club has just been organized with a membership of 2,000 George W. Hardesty, a Big Four conductor, and Charles W. Crowe, a Vandalia line baggage master, were the organizers. Hardesty said to-day:

On all the trains running into this city polls are daily taken, some of them by the conductors. Yesterday running down from Chicago with Gov. Hanly on the train the conductor took a poll as to the result in the State. With fifty-nine voters the result was: Taft, 40; Bryan, 17, and Debs, 2.

It is heard in many quarters that the three Jims are working day and night for the State ticket and for the Legislature, the activity to retain control of the latter representing the interest in the return of Senator Hemenway to Washington. The present Legislature is Republican on joint ballot by 30.

Gov. Hanly is severely criticised in the cities of the State by Republicans as well as Democrats for calling an extraordinary session of the Legislature to jam through his county local option bill, while the Hepublicans and many of the Democrats of the country counties are lauding the Governor to the skies for his action in the matter.

If Watson is beaten for Governor it will be because of his personal unpopularity and the unpopularity of Goodrich and Hemenway and because thousands of Republicans in the cities, angered by Gov. Hanly's county local option bill, are to vote for Marshall, the Democrat, advocating the ward and township unit on the liquor question.

Thousands of workingmen also, it is learned, are arrayed against Watson because he influenced Gov. Hanly to appoint W. E. Blakley, a non-union man, to the important post of factory integrating the control of the State are lined up against Watson.

so engrossed in Republican, Democratic and Prohibition politics that they have not paid much attention to the Socialists, and yet in some parts of Indiana that vote will have to be reckoned with. In 1904 the Socialists cast, as already stated. about 12,000 votes in Indiana. In 1906 their vote fell off considerably, the total for the State being 7,824. That the Socialist ticket will poll more votes than was up to this time expected is an agreed proposition among politicians. ports of these men show an increase of socialism.

The reports also show that the majority of the converts to socialism come from the Republicans. In Muncie, for instance, a number of Republican precinct committeemen have resigned and gone into socialism. At Petersburg the Socialists have a good organization, and though there are many Democrats in it there are more Republicans than Democrats.

Madison county, which casts the largest Socialist vote in proportion to population, will, in the opinion of politicians, double its socialistic vote this year, and a number of Republican farmers have announced their allegiance to the party of Debs.

The coal miners of Greene county are being rapidly converted, and many railroad men in the shops at Elkhart are becoming Socialists. The Socialist vote in Terre Haute and Evansville this year will be from present indications unsuched

THE BRYAN HOME VOTE.

Republican Chairman Says Candidate's Town and County Are Against Him. LINCOLN, Oct. 14 .- That Bryan will lose is home county by 2,000 is the positive prediction made by Republican County Chairman Matson. Commenting on the assertion of Democrats that Bryan would gain largely here Mr. Matson says:

"I am not surprised at this claim of the Democrats, as it is but a part of their general scheme to misrepresent political conditions in Mr. Bryan's home town. I have observed that many Democrats have persistently and knowingly misrepresented conditions and the position of prominent men in Lancaster county during this campaign. I presume this is for the purpose of having an effect on this State and perhaps other States, for it is a well known fact that the city of Lincoln a well known fact that the city of Lincoln and Lancaster county are strongly Republican. Even in 1896, the time Mr. Bryan was the strongest, he lacked approximately 600 votes of carrying this county. In 1900 he lost it by over 1,700, and I am in position to know and do know that the prospects for a big Republican majority in this county are better this fall than in 1900."

Washington, Oct. 14.-State Senator Alfred Page and Gen. Henry L. Burnett were the President's New York callers to-day. Both of the visitors, who came together, talked over the New York political situation with the President, and both of them assured him that Taft and Hughes would carry the State. Senator Page ridiculed recent newspaper polls. He said such canvasses were unreliable as a outlook had been discouraging early in the campaign. TOUR OF LABOR CENTRES MAKES HIM CONFIDENT.

Believes That Union Men in Ohio and Elsewhere Will Divide as Usual Along Party Lines - Makes Auspictous Entry Into West Virginia-Is Going South

WHERLING, W. Va., Oct. 14,-Judge Taft CALLS IT LUNATIC'S SCHEME. is confident that his home State is safe for the Republican ticket. He said to-night at the conclusion of a

three day trip through Ohio labor centres that he is satisfied that labor's attitude toward him has been misrepresented and that he will get the full party vote from that source in Ohio and in the other States as well. Here is what Mr. Taft had to say as he

left his own State to strike out into West Virginia and thence into the solid South "I have now spent three days in Ohio, much of the time in industrial and labor centres among men who, it was reported were disaffected and opposed to the Re-

publican party and its candidate. "Wherever I appeared I was cordially received and only an occasional interruption indicated that misrepresentation of the attitude of the party and the candidate had made a casual impression. "It is my opinion that the attitude of

labor toward the Republican party has been misrepresented quite as freely as that of the party and the candidate toward labor, and I find no reason for the belief that labor will divide other than on the law, business is booming just as wellines that have heretofore divided it. The situation in Ohio is entirely satisfactory; and no one has any reasonable doubt but that the maiority will be a substantial one. I certainly have no doubt on the subject my self."

Arthur I. Vorys, Mr Taft's chief of staff, who travelled with the candidate through Ohio, added a word or two.

"Judge Taft's three days trip," said he, "has cleared the labor situation in the State wonderfully. We were confident before the candidate went out that a

Leaving Ohio behind him without a doubt as to the result. Mr. Taft turned an attentive ear to cheerful assurances by United States Senator Nathan Bay Scott and other West Virginia leaders in regard to that State. Senator Scott promised that the State will go for Mr Taft by 25,000. Normally it is Republican by about 29,000. Roosevelt carried

it by 31,000. The toughest problem that faces the Republican leaders in West Virginia is to heal up the breach between the Swisher and the Scherr factions. That was the bitterest factional row that the national committee has had to deal with the committee has had to deal with the committee and the schere of the second of t in the campaign, and it was only after entreaties, prayers and threats on the part of the national committee that both Swisher and Scherr withdrew from the race for Governor.

REPUBLICAN CLUBS DOING GREAT WORK FOR TAFT. Catching First Voters All Over, Espe-

cially in Ohio, Maryland, Colorado,

Indiana and Nebraska-Business Is Waiting for Bryan's Elimination. John Havs Hammond, who among his many activities is president of the National League of Republican Clubs, said yesterday that the league had been working

hard for the Republican ticket and had been making votes for Taft. The league had been busy organizing clubs throughout the country, but had been especially active in Ohio, Indiana, Nebraska, Colorado and Maryland. The clubs aimed particularly to get first voters

started right in politics. -We have been hearing favorable reports from all over the country," said Mr. Hammond, "and particularly favorable reports from Ohio and Maryland. In Ohio 100 clubs have been organized within the last month. These clubs have been formed in places where Taft clubs were not in existence. The average membership is 175, and as most of the members are young men about to cast their first vote or naturalized Americans exercis ing the franchise for the first time it will Students of New York University formed be seen what a tremendous amount of resterday a Republican club to be part good has been done for the ticket in Taft's

native State. "There has been a great improvement in Ohio in the last few weeks. The State is warming up to its favorite son. In Colorado too there has been a great increase in Taft sentiment. In that State we have organized a club in every county and several clubs in each of the large

"I have no doubt that the Republican ticket will carry all five of the States I have mentioned. We are getting good news right along not only from States but from the entire country Mr. Hammond said that one thing which had impressed him greatly in the campaign was the way business was waiting on the result of the election. The fear of Bryanism was very potent not only in this country but in Europe.

"Every day," he said, "I hear of large industrial enterprises waiting for the verdict of the people. Here's one example. Edward Cooke, a foundryman of Potts-

Edward Cooke, a foundryman of Potts-Edward Cooke, a foundryman of Pottstown, Pa., has an order for 500 tons of pig iron which is to be made into stoves and radiators. This order is contingent absolutely upon Taft's election. I have heard of hundreds of similar cases.

"You hear talk of Bryan's strength in the West, but the West is waiting just as anxiously on the result of November 3; that is, the business of the West is waiting. Men from all over the West are here in Men from all over the West are here in New York now seeking to secure money with which to complete important enter-

prises. They have found that they can't get a cent until after the election and then only in case Taft beats Bryan. "Many friends of mine in the West, some of them in the mining business and some in other lines of activity, have been in the habit of depending upon Europe for funds to be used in developing big enterprises. These men have told me that there is no money in Europe for American investment until Bryan is

"Not only have I heard these things from men who have come to this city, but I have been around the country a lot lately and have seen that they are so for

myself.
"The way I view the situation is that
Taft is going into the White House with a big electoral vote and that four years of his conservative control of our national affairs will end all talk of Bryanism and

Sun Wershipper, Witness Says, Received Visitors and the Postman in Scant Attire. Boston, Oct. 14 .- A sensation was caused at the Mazdaznan hearing in the East Cambridge Superior Court this afternoon, when Judge McIntyre warned Mrs. Mary E. R. Hilton, the "High Priestess" of the Lowell Temple of Sun

Worshippers, to make no signs with hands or eyes to the witnesses. He ordered her to move to a side seat where she could not face the witness. and then warned all others in the court room against any hypnetic passes or

motions. This action was taken when Mrs. Ellen M. Shaw, the defendant who is fighting the efforts of Mrs. Mabelle M. Dutton of Dorchester to have a conservator appointed to prevent the Shaw estate from falling into the hands of the Sun Wor-shippers, was called to the stand. Judge McIntyre warned Mrs. Hilton and every one else in the court room that if any one was detected making signs of motions to the witnesses he would im-mediately be forced to leave the court

oom.

A complete denial of all the charges concerning Mrs. Shaw's actions subsections of the Mazdaznan concerning Mrs. Shaw's actions su quent to her adoption of the Mazdaz cult and an attack upon the personal veracity of Mrs. Dutton comprised the

Relatives declared that Mrs. Shaw's physical condition has improved since she became a Sun Worshipper and had undergone Hanish's treatment. They de-

clared that her actions have been sane in every way. Mrs. Dutton was declared to have a reputation for untruthfulness.

W. H. Drew, a witness for the plaintiff. testified that several times when he dropped in to visit Mrs. Shaw at her home she was going about the house with she was going about the house with nothing on but a union suit. About three years ago he saw her go to the door with nothing on but the union suit of under wear and take mail from the

carrier.

Mrs. Elsa Stein Dittman in an interview to-day said: "I want the public to know the real reason why I am a witness at this trial. I am here for the purposs of protecting myself from the lies told about me. Two Mazdaznan leaders have publicly stated that I was fired out of the mazdaznan was I stell several. bublicly stated that I was fired out of the Mazdaznan work because I stole several thousand dollars worth of jewels from Dr. Hanish in Chicago. This is absolutely untrue. I defy them all. Mazdaznan work is a fake, and I am here to show it up as such. My real reason for leaving the Mazdaznan work is that I became disgusted with the hypocrisy of it."
